24 – 27 August 2016 – University of Linz, Austria

Information and guidance for sponsors and exhibitors

Introduction

Dear Sponsors and Exhibitors,

We cordially invite you to actively participate in the “**EUSAAT 2016 3Rs Congress Linz**”, which is the “20th European Congress on Alternatives to Animal Testing” and the “17th Annual EUSAAT 3Rs Congress”, EUSAAT 2016, will be held at the Johannes Kepler University (JKU) in Linz, Austria, on 24-27 August 2016. Since the first 3Rs congress was held in Linz in the year 1991, in 2016 we will be celebrating the 25th anniversary.

As the leading international 3Rs congress for 2016 the “EUSAAT 2016 3Rs Congress Linz” will provide you with an excellent stage to present and discuss your ideas with colleagues from academia, animal welfare, industry and government institutions around the world. During the past 25 years the JKU Linz has contributed to a stimulating and unique atmosphere that participants have enjoyed over the years.

Many government and non-government institutions, national and international organizations and societies, industry partners and colleagues interested both in the advancement of life sciences and animal welfare, have quite generously sponsored one or more of the previous European 3Rs Congresses.

Any contribution is considered as an encouragement to progress in the life sciences while applying the ethical principles of the 3Rs of Russell and Burch (1959), which are the Replacement, Reduction and Refinement of using experimental animals. To show our appreciation for your financial support, we are offering some privileges to our sponsors. We do hope that among our proposals you will find attractive products for sponsoring the EUSAAT 3Rs Congress in 2016. We do particularly welcome sponsoring of the “Young Scientists Travel Award” (YSTA) program, which we launched for the first time last year at the EUSAAT 2015 Congress and which attracted a huge crowd of young scientists from around the world.

The exhibition space is located next to the poster exhibition and coffee break areas to facilitate your interaction with participants.

The “**EUSAAT 2016 3Rs Congress Linz**” provides an opportunity to share scientific experience on alternatives to animal use in the life sciences, to get updated on the EU 3Rs policy and to discuss new concepts of implementing the 3Rs in academic education at the European and the international level.

We are looking forward to welcome you in Linz in August at EUSAAT 2016!

Horst Spielmann
Ellen Fritsche
Manfred Liebsch
Erwin Roggen
(Congress Co-chairs)

24 – 27 August 2016 – University of Linz, Austria

1. Sponsoring

The organizers are inviting companies, institutes and other associations to promote their organization at the “**EUSAAT 2016 3Rs Congress Linz**”, Austria, on alternatives to animal testing. For sponsors and exhibitors this event will provide an opportunity to increase their visibility and to establish valuable contacts in the field of 3Rs and animal welfare.

The organizing committee is offering a wide range of sponsorship opportunities to allow sponsors to actively contribute to the success of the “**EUSAAT 2016 3Rs Congress Linz**”. Sponsors may choose to act either as one of the main sponsors or as supporting sponsor. In addition, companies or other supporters may select additional sponsoring options, as outlined in this brochure.

Some sponsoring options are limited and will, therefore, be offered according to the first come first service concept. Sponsors will distinctly be presented on the congress website, during the congress on a PPP as well as in the final printed program. The organizers wish to encourage sponsors and exhibitors to confirm their participation in the “**EUSAAT 2016 3Rs Congress Linz**” in Linz as soon as possible.

Sponsoring of the “EUSAAT 2016 3Rs Congress Linz” will provide the following benefits:

- Recognition by leading individuals in the 3Rs area from academia, animal welfare organizations, regulatory agencies, government institutions and in particular from innovative companies in the sciences and biotechnology
- Improving your scientific and social contacts and business opportunities
- Exposing your products at a high level international congress
- Contacts with scientists and experts in implementing and advancing 3Rs testing strategies, in particular in new *in vitro* technologies
- Recognition as an organization that is promoting the concept of “Toxicity testing in the 21st Century”
